**The Epistles of Peter**

Where should believers as resident aliens in this world look for their hope? How are they to relate to unbelieving authorities over them? How should they respond to persecution and mistreatment? What virtues should they cultivate and what dangers do false teachers pose? These questions and the apostle's answers are as pertinent to us today as they were for believers living in the first century AD. Join us as we consider Peter's teaching on these issues and others.

**Fundamentals of the Faith**

One of the greatest needs in the American church today is for a better grasp of the foundational teachings of the Bible. This study is designed to both provide new believers with a solid theological foundation, as well as help more mature Christians sharpen their understanding of key doctrines. More importantly, it is designed to grow our view of God that we would love and trust Him more and more.

**College & Career Class -- 1 John (Continued)**

John, the disciple "whom Jesus loved", was now greatly advanced in years and the only apostle still living. However weak his aging body may have been, John showed great strength of faith and vitality for ministry in his epistles. He calls us to return to the basics of the Christian faith in order to identify and steer clear of erroneous teaching and experience sweet fellowship with the body of Christ for whom Jesus has given Himself. Our study of 1 John will seek to remind us of these precious truths and apply them to our living.

**1 Corinthians (Continued)**

If there was one city whose name was synonymous with sin, it was Corinth. A wealthy center of trade, it also became a center of wickedness and debauchery. Unfortunately, worldliness of the Corinthian culture found its way into the Corinthian church. Paul's letter is both theologically rich and highly practical. It is both a call to repentance and holiness, and an encouragement to embrace the hope believers have in Christ.
